BACTERIA DOSING DECISION MATRIX

Do you have oil and grease?

- YES to either or both

  Utilize a blend of Bacillus and Pseudomonas

  Pseudomonas blends are only available in dry powder

  Dry powder can be manually dosed, or with a volumetric feeder

- No or very little oil and grease

  Utilize a blend of high strength Bacillus

  Utilize the dosing recommendations to determine how much bacteria to use

  Bacillus are available in liquid or dry powder

  Liquid dosing can be automatically done with a metering pump

  Dry powder can be manually dosed, or with a volumetric feeder
